Profile

Highly motivated and detail-oriented software development student seeking a Full stack Software Internship position. Offering a solid foundation in coding, JavaScript, Rust, HTML, Node.js, CSS, and a strong commitment to learning and professional growth. Eager to apply acquired skills in a dynamic and collaborative work environment.

Experience

Aug 2022 to Dec 2022

Junior Backend Developer, Logig Takoradi August 2022 - December 2022
Developed and maintained backend functionality for custom CRM using Nodejs and Reactjs.
Collaborated with cross-functional teams to design and implement new features, ensuring high code quality and scalability.
Conducted code reviews and resolved bugs to enhance application performance and user experience.
Assisted in the development of RESTful APIs and database integrations.
Worked closely with senior developers to learn industry best practices and improve coding skills.
Projects:
InternStand: Developed a web application using the MERN stack (MongoDB, Express.js, React, Node.js), implementing user authentication and data storage functionalities.
OpenDoc: Created a responsive Ai tool for documents reading using stream lit Langchian and OpenAI Api.

Education

Jan 2021

Takoradi Technical University
Bachelor of Computer Science
Level 200 (degree)

Additional Information:

Actively contribute to open-source projects on GitHub, enhancing coding proficiency and collaborating with the developer community.
Participated in hackathons and coding competitions, demonstrating problem-solving abilities under time constraints.

Keen interest in emerging technologies and a strong drive to stay up-to-date with industry trends and advancements.

Key skills and characteristics

- Programming languages: Rust,
- Java,
- JavaScript,
- Python

- Software Development: Coding, Debugging, Troubleshooting
- Problem-Solving: Analytical Thinking, Creativity, Attention to Detail
- Teamwork and Collaboration: Excellent interpersonal and communication skills
- Web Technologies: Html, CSS, React
